3rd INTERNATIONAL TEXTILE MACHINERY & ACCESSORIES EXHIBITION

ITMACH INDIA

5 6 7 8
December 2019

The Exhibition Centre, Helipad Ground, Gandhinagar, Ahmedabad, Gujarat, India

www.ITMACH.com
See the latest textile machinery and technology, experience it first hand.

Meet the technical experts from leading textile machinery & technology suppliers, Industry professionals. Discuss business ideas and network.

Learn about the trends, developments and opportunities. Share knowledge and fine-tune ideas.

DISCOVER PROMISING MARKETS & EXPLORE NEW CUSTOMERS
INDIAN MARKET FOR TEXTILE MACHINERY
US$ 3.8 billion

INDIAN TEXTILE INDUSTRY
- Spinning Mills: 3323
- Synthetic & Texturising Mills: 380
- Weaving Mills: 55400
- Knitting Mills: 2800
- Dyeing & Printing Mills: 4000
- Garmenting Factories: 255000
- Handlooms: 2378000

NEIGHBOURING COUNTRIES
Bangladesh | Myanmar | Sri Lanka | Iran | South Africa | U.A.E. | Vietnam | Thailand | China | Indonesia

TEXTILE & APPAREL EXPORT
US$ 40 billion

DOMESTIC TEXTILE MARKET
US$ 60 billion
India is the second largest giant in the textile manufacturing nation globally. Consequently, the country also offers enormous opportunities to strengthen its position in this booming business. Simultaneously, her neighboring countries in the South East Asia & Middle East are emerging hubs for textile & apparel manufacturing & trade. The already large and further growing textile industry in India & neighboring countries need adequate interaction with the technology providers. The industry quintessentially looks for firsthand experience of latest technology.

While machinery makers are desirous of meeting the growing markets, innovations and developments, exchanging ideas & knowledge with the user industries. Scheduled from 5-8th December 2019 in Gandhinagar at the outskirts of the Ahmedabad, ITMACH India Exhibition is going to be the marketplace to interact with potential new & existing investors from India and neighboring countries.

PREMIUM STALL

- Standard Stall (minimum space 12 Sq. Mtr.)
- Two sides open 10% premium on base price
- Three sides open 15% premium on base price
- All sides open 20% premium on base price
Testimonials ITMACH India 2017

Harsh Shah
Managing Director, Embee Group

This is the second time we are participating in ITMACH India and the response was very good, since we are in this industry for more than six decades, we have a well-established market in Ahmedabad and many directors and top level executives took time and visited our stall.

We exhibited our two latest developments. Servo Individual Drive Systems in rotary screen printing systems and Laser Bird, which is the world's first laser stripping machine exclusively for textile rotary screen. We received huge success for both of these products. Most of the visitors took keen interest in our rotary screen printing machine with servo individual drive systems.

Dhandayuthapani (CD)
Director, MAG Solvics

The response at ITMACH India was extremely good. We were fully busy in the exhibitions. Since we displayed new products, everybody has appreciated its features and performance. We received quality customers, some major enquiries and orders through it. We are still working in the enquiries in order to convert them into orders.

Bhadresh Bhatt
MD, Deep Pneumatics

2017 was not very good for the industry where we serve. But for our company it was a very fruitful year. We got a lot of new orders. In fact, the entire air supply of ITMACH India Exhibition was done by Deep Pneumatics.

Testimonials ITMACH India 2017

Gaurav Parmar
Director, Rimgtex

It's been really nice, we are impressed with the organizer. Number of visitors is good. We participated in the first edition also. Now people have taken it seriously as you can see from exhibitors, exhibition center. Gujarat is providing world class infrastructure, everyone should take advantage of it.

P Kasiviswanathan
Executive Director
Picanol India Pvt. Ltd.

At the exhibition we received an amazing response and visitors traffic was good. We had our complete and dedicated sales, service and after sales team to receive the customer and new prospects and explain them about the new features and the performance of the machine.

Source: Perfect Sourcing

Amoli Shah
Director, Prashant Group

Over all we are happy with the exhibition. We will continue to participate in future edition too.

Christian Straubhaar
Sales & Marketing Director,
Itema Group

We participated at ITMACH India with one of the biggest stands in the hall and our airjet weaving machine A9500p was displayed to show our huge potential and our technical superiority to the Gujarat textile industry, which is one of the main here in India. Moreover, we expected to meet our Surat Customers, where we have an optimal and strong presence. I think that this exhibition has its main value in offering to companies the possibility to display their products exactly where prospects and Customers are.

India, being strategically located between South East Asia and Middle East - one of the largest regions for textile and apparel manufacturing & trade, is the destination for future growth and investment in textile and apparel industry. Gujarat is the epitome of success when it comes to economic development in India. The growth and development of its textile sector is even more deep rooted. Ahmedabad, which was known as the 'Manchester of the East' in the past for its booming textile industry, is today a well developed business hub & financial centre. Thus, ITMACH India 2019 will be held in its vicinity in Gandhinagar at The Exhibition Centre, Helipad Ground, Sector-17, Gandhinagar, Gujarat, India from 5-8 December, 2019.

The exhibition building at the venue has been designed with advanced technology and amenities. It has an administrative block to meet the varied requirements of the global meets, convention, seminars, conferences & exhibitions of both national and international levels. The setting offers a whole new palate of facilities including exceptional infrastructure and state-of-the-art facilities. This will enable the industry to derive much more optimum value from the event.
ITMACH India 2019
3rd International Textile Machinery & Accessories Exhibition

Why To Exhibit?
• Showcase Excellence and Innovation in Textile Technology
• An accredited B2B Platform for Textile Industry
• Encourage Investments in Technology and Capacity Building

Connect to the land of opportunities - India
• India – being a large textile manufacturing country and fastest growing economy in the world, has enormous opportunities to strengthen its position in this business.
• The country’s textile industry friendly policies are fueling growth, investment and adoption of technology in the recent years.
• Centrally sponsored Technological Upgradation Fund Scheme (TUFS) & Scheme for Integrated Textile Park (SITP) are prime investment drivers.
• State Govt.’s Textile Policies (for example: Gujarat, Maharashtra, Karnataka) rejuvenating textile industry and added benefits to investors.
• All textile policies are simplified and investors can opt for dual benefits for same project subject to fulfilling the laid norms.
• Textile machinery import draws minimum import duty and even duty-free import is possible for several categories of machines & technology.
• The TUFS has leveraged investments of INR 2,43,721 crore (US$ 40 bln at current exchange rate) since its launch in April 1999.
• TUF Scheme is continued and expected to generate investment worth INR 1,50,000 crore (US$ 20 bln) in the coming five years.
Gujarat is the epitome of success when it comes to business and economic development in India. The growth and development of its textile sector is even more deep rooted.

The Gujarat Textile Policy and Industrial Policy are very attractive and bringing large investment to textile sector.

The state has adopted the 5F Mantra "Farm to Fibre to Fabric to Fashion to Foreign" an integrated approach enhancing sustainable growth of industry. Apart from these factors, Gujarat has:

- Availability of all textile raw materials in abundance.
- Strategic location offers easy accessibility to the West, Middle East and African markets.
- Well developed infrastructure: Road, Rail, Sea ports and Airports.
- Produces about 14,000 MW of power of which about 2,000 MW is surplus.
- Offers highly productive and peaceful workforce.
Product Categories

Machinery for Yarn Spinning, Man-made fibre
  Spinning, Winding, Texturising, Twisting and Accessories
Machinery for Web Formation, Bonding, Finishing of Non-wovens, Felting and Accessories
Machinery for Preparatory Weaving, Weaving, Tufting and Accessories
Machinery for Knitting, Hosiery and Accessories
Machinery for Embroidery, Braiding and Accessories
Machinery for Washing, Bleaching, Dyeing, Finishing, Cutting, Folding and Accessories
Machinery for Printing, Digital Printing, Consumables and Accessories

Machinery for Garmenting, Garment Processing & Finishing and Accessories
Laboratory Testing, Measuring and Quality Control Equipment and Accessories
Transport, Material Handling, Logistics, Warehousing, Packing Equipment and Accessories
Equipment for Recycling, Waste Reduction and Pollution prevention and Accessories
Software for Design, Data Monitoring, Management, Processing and Integrated production
Dyes, Pigments, Inks, Colourants and Chemical Auxiliaries for textiles
Services for the textile industry and Associated Equipment for textile plant operations
